

# DL-NW Pecan Scale

**Pieces**

**Halves**

**Whole**

**Use Any Type of  
Pre-Made Bag or Pouch**

**Manual or Automatic  
Sealing Machines**

**Pre-printed & Plain Bags  
or integrated with VFFS**

Our nut scale is easy to use: fill the hopper with product, pieces, halves or whole pecans... even spices. Access a preprogrammed target weight. The scale automatically delivers the product to the weigh bucket.

Then step on the foot pedal and the product drops through the funnel into a hand-held bag. As you reach for another bag, the **scale** refills the weigh bucket to the proper amount and waits for your next bag. "Band sealers" can then seal the bag immediately after bagging.

***It's that simple!  
And extremely Accurate!***

*The scale can be integrated to work automatically with a bagging machine now or later, allowing you to expand as your business grows saving you time and money.*

We can help with all of your packaging needs...whether bulk In 50 lb bags or 6 oz snack packs.

Full line of weighing and packaging machines fully Integrated for ease of use and maximum profitability.

## **FEATURES**

10" **COLOR** touch-screen
